

### MATERIAL

Material	Recyclable HDPE
UV Stabilization	Limited Carbon Black

### PRODUCT

Shape	Hexagonal cell structure
Anti-Slip System	Min 571 anti-slip triangles per panel
Locking System	Clicking system
Dimensions	30.375" x 23" x 0.875" (1 Panel = 4.85 sq ft)
Weight	4.5 lbs per panel; 0.93 lbs per sq ft

### TESTING

GMAX value	151 (panel on concrete)*
Load Capacity	374 psi up to 998 psi
Vertical drainage	4,068" per/hr
Horizontal drainage	1,673" per/hr
Water storage capacity	1.98 gallons per panel
Expansion	Less than 0.03" movement in all directions
Slip resistance	2x higher than crushed stone

\*GMAX values vary depending on materials below and turf system above the EasyLock Base Panels

## EASYLOCK

### ADVANTAGE

More and more installers are realizing rock is not always the best option for base work under artificial grass. **EasyLock Base Panels** are the best base replacement system option available on the market. It saves time, saves wear and tear on machines or rental costs, and eliminates the need for excavating large volumes of dirt. Perfect for rooftops, playgrounds, pets, sports fields, and landscaping projects, **EasyLock Base Panels** are the perfect base alternative.

**A BETTER BASE UNDER SYNTHETIC TURF**
